

GETCHELL GOLD CORP.

CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED MARCH 31, 2026 AND 2025
(Expressed in Canadian Dollars)

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF GETCHELL GOLD CORP

Opinion

We have audited the consolidated financial statements of Getchell Gold Corp and its subsidiary (the "Company"), which comprise:

- ◆ the consolidated statements of financial position as at March 31, 2026 and 2025;
- ◆ the consolidated statements of loss and comprehensive loss for the years then ended;
- ◆ the consolidated statements of changes in shareholders' (deficiency) equity for the years then ended;
- ◆ the consolidated statements of cash flows for the years then ended; and
- ◆ the notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at March 31, 2026 and 2025, and its consolidated financial performance and consolidated cash flows for the years then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards").

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the consolidated financial statements, which indicates that the Company incurred a net loss of \$6,964,811 during the year ended March 31, 2026 and, as of that date, the Company had a deficit of \$42,110,959. As stated in Note 1, these events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended March 31, 2026. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Except for the matter described in the *Material Uncertainty Related to Going Concern* section, we have determined that there are no other key audit matters to communicate in our auditor's report.

Other Information

Management is responsible for the other information. The other information comprises the information included in Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

VANCOUVER

T: 604 282 3600
F: 604 357 1376

- ◆ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ◆ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ◆ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ◆ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ◆ Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ◆ Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Company as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Getchell Gold Corp. (the "Company") is a Canadian junior resource exploration company that carries on business in one segment, being the identification, acquisition, and exploration of properties for mining of precious and base metals. The Company is incorporated and domiciled in British Columbia, Canada.

The Company has two exploration assets in Nevada, USA. The registered address of the Company and its principal place of business is Suite 488 – 625 Howe Street, Vancouver, British Columbia V6C 2T6. The Company's shares are listed on the Canadian Securities Exchange ("CSE") under the symbol "GTCH". In the United States, the Company's shares are traded on the Over-the-Counter OTCQB Venture Market ("OTCQB") under the symbol "GGLDF" and also trade in Germany on the Frankfurt Stock Exchange ("FWB") under the symbol "GGA1".

The business of exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company's continued existence is dependent upon access to capital to fund its activities, the preservation of its interests in the underlying properties, the discovery of economically recoverable reserves and the ability of the Company to dispose of its interests on an advantageous basis. Although the Company has taken steps to verify title to the property on which it is conducting exploration and in which it has an interest, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, aboriginal claims, title disputes, and non-compliance with regulatory requirements.

These consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern. This assumes the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its obligations in the normal course of operations. As at March 31, 2026, the Company had not yet achieved profitable operations and continues to be dependent upon its ability to obtain sufficient working capital from external financings to meet the Company's liabilities as they become payable, and ultimately to generate profitable future operations. The Company incurred a net loss of \$6,964,811 (2025 - \$3,126,958) during the year ended March 31, 2026. As at March 31, 2026, the Company had a deficit of \$42,110,959 (2025 - \$35,645,523). These material uncertainties may cast significant doubt on the Company's ability to continue as a going concern. These consolidated financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of operations, and at amounts different from those in the consolidated financial statements. Such amounts could be material.

2. BASIS OF PREPARATION

(i) Statement of compliance

These consolidated financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards"). The policies set out below were consistently applied to all the periods presented unless otherwise noted.

These consolidated financial statements of the Company were approved and authorized for issue by the Board of Directors on July 28, 2026.

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

(ii) Basis of presentation

These consolidated financial statements were prepared under the historical cost basis, except for certain assets which are measured at fair value as explained in the accounting policies set out in Note 3 below. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information. The consolidated financial statements are presented in Canadian dollars unless otherwise indicated.

(iii) Principles of consolidation

These consolidated financial statements include the accounts of the Company and its wholly owned subsidiary Getchell Gold Nevada Inc. (incorporated in Nevada, USA). Subsidiaries consist of entities over which the Company is exposed to, or has rights to, variable returns as well as the ability to affect those returns through the power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date control is transferred to the Company and are de-consolidated from the date control ceases. The consolidated financial statements include all the assets, liabilities, revenues, expenses and cash flows of the Company and its subsidiaries after eliminating inter-entity balances and transactions.

(iv) Significant accounting judgments, estimates and assumptions

The preparation of consolidated financial statements in conformity with IFRS Accounting Standards requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates and these differences could be material.

The areas which require management to make significant judgments, estimates and assumptions in determining carrying values include, but are not limited to:

- Going concern

As is common with exploration companies, the Company's ability to continue its on-going and planned exploration activities and continue operations as a going concern is dependent upon the recoverability of costs incurred to date on mineral properties, the existence of economically recoverable reserves, and the ability to obtain necessary equity financing from time to time. The factors considered by management are disclosed in Note 1.

- Debentures

Upon conversion of the Debentures, management determined that the terms had been amended to induce conversion, in which case the transaction was accounted for as an extinguishment of the original liability, with any new equity instrument recognized at fair value and the difference recognized as loss on debt settlement.

- Share-based compensation

Management determines costs for share-based compensation using market-based valuation techniques. The fair value of the market-based and performance-based share awards are determined at the date of grant using generally accepted valuation techniques. Assumptions are made and judgment is used in applying valuation techniques. These assumptions and judgments include estimating the future volatility of the stock price, expected dividend yield, future employee turnover rates and future employee stock option exercise behaviors and corporate performance. Such judgments and assumptions are inherently uncertain. Changes in these assumptions affect the fair value estimates.

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The material accounting policies that have been applied in the preparation of these consolidated financial statements are summarized below.

(i) Foreign currency transactions and translation

The Company's presentation and functional currency is the Canadian dollar. The functional currency of Getchell Gold Nevada Inc. is also the Canadian dollar.

Transactions in currencies other than the Canadian dollar are recorded at exchange rates prevailing on the dates of the transactions. At the end of each reporting period, the monetary assets and liabilities of the Company that are denominated in foreign currencies are translated at the rate of exchange at the date of the consolidated statement of financial position while non-monetary assets and liabilities are translated at historical rates. Revenues and expenses are translated at the exchange rates approximating those in effect on the date of the transactions. Exchange gains and losses arising on translation are included in profit or loss.

(ii) Cash and cash equivalents

Cash and cash equivalents includes demand deposits and highly liquid investments held in the form of money market investments and certificates of deposit with investment terms of three months or less at acquisition.

(iii) Exploration and evaluation properties

The Company expenses exploration and evaluation expenditures as incurred. Exploration and evaluation expenditures include acquisition costs of mineral exploration properties, property option payments, annual minimum royalties, and evaluation activity. Once the technical feasibility and commercial viability of extracting the mineral resource has been determined, the property is considered to be a mine under development and is classified as 'mines under construction' into property, plant and equipment. All costs relating to the construction, installation or completion of a mine in the development phase that are incurred are capitalized to mines under construction. On the commencement of commercial production, depletion of each mining property will be provided on a unit-of-production basis using estimated resources as the depletion base.

(iv) Property and Equipment

On initial recognition, property and equipment is valued at cost, being the purchase price and directly attributable cost of acquisition or construction required to bring the asset to the location and condition necessary to be capable of operating in the manner intended by the Company, including appropriate borrowing costs and the estimated present value of any future unavoidable costs of dismantling and removing items. The corresponding liability is recognized within provisions. Property and equipment is subsequently measured at cost less accumulated depreciation, less any accumulated impairment losses.

Depreciation is based on the cost of an asset less its residual value. Depreciation methods, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate. Depreciation is recognized in profit or loss over the estimated useful lives using the following basis:

- Computers – 55% declining balance
- Field equipment – 25% declining balance
- Furniture – 25% declining balance
- Vehicles – 25% declining balance
- Right-of-use asset – Straight line over lease term

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

(v) Impairment of non-financial assets

The carrying values of long-lived assets are assessed for impairment when indicators of such impairment exist. If any indication of impairment exists, an estimate of the asset's recoverable amount is calculated. The recoverable amount is determined as the higher of the fair value less costs to sell for the asset and the asset's value in use.

If the carrying amount of the asset exceeds its recoverable amount, the asset is impaired and an impairment loss is charged to profit or loss so as to reduce the carrying amount to its recoverable amount.

(vi) Financial instruments

Recognition and classification

The Company recognizes a financial asset or financial liability on the statement of financial position when it becomes party to the contractual provisions of the financial instrument.

The Company classifies its financial instruments in the following categories: at fair value through profit and loss ("FVTPL"), at fair value through other comprehensive income (loss) ("FVTOCI"), or at amortized cost. The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics.

Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or if the Company has opted to measure them at FVTPL.

Measurement

Financial assets at FVTOCI

Elected investments in equity instruments at FVTOCI are initially recognized at fair value plus transaction costs. Subsequently they are measured at fair value, with gains and losses recognized in other comprehensive income (loss).

Financial assets and liabilities at amortized cost

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost using the effective interest method less any impairment.

Financial assets and liabilities at FVTPL

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in profit or loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in profit or loss in the period in which they arise. Where management has opted to recognize a financial liability at FVTPL, any changes associated with the Company's own credit risk will be recognized in other comprehensive income (loss).

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the credit risk on the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to the twelve month expected credit losses. The Company shall recognize in profit or loss, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

Derecognition

Financial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity. Gains and losses on derecognition are generally recognized in profit or loss. However, gains and losses on derecognition of financial assets classified as FVTOCI remain within accumulated other comprehensive income (loss).

Financial liabilities

The Company derecognizes financial liabilities only when its obligations under the financial liabilities are discharged, cancelled, or expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets or liabilities assumed, is recognized in profit or loss.

(vii) Debentures

Debentures were separated into its liability and equity components on the consolidated statements of financial position. The liability component is initially recognized at fair value, calculated at the net present value of the liability and accounted for at amortized cost using the effective interest rate method. The effective interest rate used is the estimated rate for non-convertible debt issued by comparable issuers with similar terms at the time of issue. The residual value is then allocated to the equity component. Transaction costs are apportioned between the liability and equity components of the debenture, based on the allocation of proceeds to the liability and equity components when the debenture is initially recognized.

(viii) Leases

The Company accounts for leases under IFRS 16, recognizing the right-of-use asset and the lease liability at lease commencement date.

The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company amortizes the right-of-use asset over the lease term of two years.

The right-of-use asset is subsequently adjusted for any impairment losses and remeasurement to the lease liability.

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate as the discount rate. The lease liability is subsequently remeasured in case of any reassessment or lease modifications.

(ix) Share capital and warrants

The Company's common shares are classified as equity instruments. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction from the proceeds.

Warrants are classified as equity if they will be settled only through the issuance of a fixed number of the Company's own equity instruments. Upon exercise, the shares are issued from treasury and the amount reflected in warrants is credited to share capital for the proceeds allocated when the warrant was first issued. Upon expiry, the grant date value of the warrants is reclassified to deficit.

The Company has applied the residual value method with respect to the measurement of shares and warrants issued as private placement units. The residual value method first allocates value to common shares issued in the private placements at their fair value as determined by the closing quoted bid price on the announcement date. The remaining balance, if any, is allocated to the warrants. Any value attributed to the warrants is recorded to warrants reserve in shareholders' equity.

Warrants issued to agents or brokers on a non-cash basis in connection with corporate financings are recorded at fair value using the Black-Scholes option pricing model and charged against share capital as share issue costs with an offsetting increase to warrants reserve.

(x) Share-based compensation

Share-based compensation expense relates to stock options and equity settled restricted share units ("RSUs"). The grant date fair values of stock options and equity settled RSUs granted are recognized as an expense, with a corresponding increase in reserve in equity, over the vesting period.

Equity-settled share-based compensation to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. An individual is classified as an employee when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee, including directors of the Company.

The fair value of the options granted is measured using the Black-Scholes option pricing model, taking into account the terms and conditions upon which the options were granted. At each financial position reporting date, the amount recognized as an expense is adjusted to reflect the actual number of share options that are expected to vest. Stock option expense incorporates an expected forfeiture rate for those options that do not vest immediately.

Equity-settled share-based compensation transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods, or when the counterparty renders the service.

Upon expiry or cancellation, the value of share-based compensation will be reclassified from share-based payment reserve to deficit.

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

(xi) Loss per share

Basic loss per share is calculated by dividing net loss applicable to common shares of the Company by the weighted average number of common shares outstanding during the year. Diluted loss per common share is computed by dividing the net loss applicable to common shares by the sum of the weighted average number of common shares issued and outstanding and all additional common shares that would have been outstanding, if potentially dilutive instruments are converted during the year. Contingently releasable escrow common shares are excluded from the calculation of weighted average number of common shares outstanding.

(xii) Taxation

Current tax

Current income tax expense represents the tax currently payable on the taxable income using tax rates that have been enacted or substantively enacted by the end of the reporting period, adjusted for amendments to tax payable with regards to previous years.

Deferred tax

In general, deferred tax is recognized in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined on a non-discounted basis using tax rates and laws that have been enacted or substantively enacted at the balance sheet date and are expected to apply when the deferred tax asset or liability is settled. Deferred tax assets are recognized to the extent that it is probable that the assets can be recovered.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except, in the case of subsidiaries, where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax assets and liabilities are presented as non-current.

(xiii) New and amended standards not yet adopted

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 introduces three sets of new requirements to give investors more transparent and comparable information about companies' financial performance for better investment decisions.

1. Three defined categories for income and expenses—operating, investing and financing—to improve the structure of the income statement, and require all companies to provide new defined subtotals, including operating profit.
2. Requirement for companies to disclose explanations of management-defined performance measures ("MPMs") that are related to the income statement.
3. Enhanced guidance on how to organize information and whether to provide it in the primary financial statements or in the notes.

This new standard is effective for reporting periods beginning on or after January 1, 2027. The Company is currently in the process of assessing its impact on future consolidated financial statements.

7. DEBENTURES

On December 29, 2023, the Company closed the first tranche of the debenture financing ("Debenture Financing") for an aggregate principal amount of \$1,917,420 in non-convertible debentures ("Debentures"). The Debentures were to mature three years from the date of grant and bore interest at 11% per annum, non-compounding. As part of the Debenture Financing, the Company issued 19,174,200 warrants (each a "Debenture Warrant"), with each Debenture Warrant entitling the holder to purchase a common share of the Company at \$0.10 per share until December 29, 2026. 50% of the Debenture Warrants vested on closing and the remaining 50% vested on February 28, 2025.

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

In connection with the Debenture Financing, the Company issued 1,410,000 finder's shares and 1,280,000 finder's warrants ("Finder's Warrants"). Each Finder's Warrant entitled the holder to acquire one additional common share of the Company at a price of \$0.15 per share until December 29, 2025. The Company incurred cash share issuance costs of \$7,709. The 1,410,000 finder's shares were determined to have a fair value of \$218,550. The 1,280,000 Finder's Warrants were determined to have a fair value of \$93,022.

On January 26, 2024, the Company closed the second tranche of the Debenture Financing, raising an additional \$1,003,998. The Company also issued 10,039,980 Debenture Warrants, each allowing the holder to purchase a common share of the Company at \$0.10 per share until January 26, 2027. 50% of the Debenture Warrants vested on closing and the remaining 50% vested on March 26, 2025.

In connection with the second tranche of the Debenture Financing, the Company issued 720,000 finder's shares and 720,000 Finder's Warrants. Each Finder's Warrant entitled the holder to acquire one additional common share of the Company at a price of \$0.15 per common share until January 26, 2026. The Company incurred cash share issuance costs of \$20,572. The 720,000 finder's shares were determined to have a fair value of \$115,200. The 720,000 Finder's Warrants were determined to have a fair value of \$55,247.

On May 2, 2024, the Company closed the third and final tranche of the Debenture Financing, raising an additional \$1,441,900. The Company also issued 11,419,000 and 3,000,000 Debenture Warrants, each allowing the holder to purchase a common share of the Company at \$0.10 and \$0.16 per share, respectively, until May 2, 2027. 50% of the Debenture Warrants vested on closing and the remaining 50% vested on July 2, 2025.

In connection with the third tranche of the Debenture Financing, the Company issued 843,900 finders' shares and granted 843,900 Finder's Warrants. Each Finder's Warrant entitled the holder to acquire one additional common share of the Company at a price of \$0.15 per common share until May 2, 2026. The Company incurred cash share issuance costs of \$25,859. The 843,900 finder's shares were determined to have a fair value of \$113,927. The 843,900 Finder's Warrants were determined to have a fair value of \$51,685.

For accounting purposes, these debentures were separated into their liability and equity components. The fair value of the liability component ("Debentures") at the time of issue was calculated as the discounted cash flows for the debentures assuming a 20% effective interest rate. The fair value of the equity component ("Debenture Warrants") was determined at the time of issue as the difference between the face value and the fair value of the Debentures. On initial recognition, the Company bifurcated a total of \$3,609,032 to the carrying value of the Debentures and \$754,286 to the Debenture Warrants, net of total deferred tax of \$170,900 for all three tranches of the financing.

On May 22, 2025, the Company offered Debenture holders the option to voluntarily convert their outstanding Debentures, together with all accrued interest owed up to the conversion date, in exchange for units under the same terms as the Offering (as described in Note 8). This was considered to be a modification of the original terms to induce conversion and therefore the conversion was accounted for as an extinguishment of the original liability, with any new equity instrument recognized at fair value and the difference recognized as loss on debt settlement.

On June 13, 2025, the Company converted the outstanding Debentures in the principal amount of \$3,612,888 and accrued interest of \$543,841 into 20,783,646 units of the Company. Each unit is comprised of one common share of the Company and one-half of one common share purchase warrant. Each whole warrant entitles the holder to acquire one additional common share at an exercise price of \$0.30 per share until June 13, 2028.

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

On June 25, 2025, the Company converted the outstanding Debentures in the principal amount of \$475,000 and accrued interest of \$69,953 into 2,724,765 units of the Company. Each Unit is comprised of one common share of the Company and one-half of one common share purchase warrant. Each whole warrant entitles the holder to acquire one additional common share at an exercise price of \$0.30 per share until June 25, 2028. In connection with the debt conversion, the Company has also accelerated the vesting of 1,025,000 previously issued Debenture Warrants.

On August 22, 2025, the Company fully repaid the remaining Debentures and all accrued interest. The Company paid \$119,692 in cash, representing \$70,000 in principal and \$49,692 in accrued interest. In addition, \$205,430 of principal was applied to the exercise of 2,054,300 previously issued Debenture Warrants, resulting in the issuance of 2,054,300 common shares of the Company.

During the year ended March 31, 2026, the Company recorded interest of \$125,332 (2025 - \$464,745) on the Debentures.

8. SHARE CAPITAL, STOCK OPTIONS AND WARRANTS

a) Shares Authorized

The Company is authorized to issue an unlimited number of common shares with no par value.

b) Transactions

(i) Year ended March 31, 2025

On May 2, 2024, the Company closed the third tranche of its Debenture Financing (Note 7) and issued 843,900 finder's shares and 843,900 Finder's Warrants. The determined fair values of the finder's shares and Finder's Warrants were \$113,927 and \$51,685 respectively.

On June 3, 2024, the Company issued 415,762 common shares at a fair value of \$56,128 (US\$40,000) as the fourth anniversary payment for the Advance Minimum Royalties in the acquisition of the Star project (Note 9).

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

During the year ended March 31, 2025, the Company issued 762,500 common shares at a fair value of \$103,438 as consideration for consulting services, issued 718,418 common shares at a fair value of \$85,704 for debt settlement, and issued 6,737,000 common shares for the exercise of options and warrants for gross proceeds of \$730,550. A value of \$168,196 was transferred from the share-based payment and warrants reserves to share capital as a result.

(ii) Year ended March 31, 2026

On June 13, 2025, the Company closed a private placement of units at a price of \$0.20 per unit and issued a total of 20,000,000 units for gross proceeds of \$4,000,000. Each unit is comprised of one common share and one-half common share purchase warrant. Each whole warrant entitles the holder to acquire an additional common share at a price of \$0.30 per share for three years from the date of issuance. The Company allocated all of the proceeds to common shares and \$nil to warrants. In connection with the financing, the Company paid finder's fees in the amount of \$56,140 and issued 283,200 Finder's Warrants. Each Finder's Warrant entitles the holder to acquire one additional common share of the Company at a price of \$0.30 per share until June 13, 2028. The Company incurred additional cash share issuance costs of \$105,723. The 283,200 Finder's Warrants were determined to have a fair value of \$39,010.

On June 13, 2025, the Company converted the outstanding Debentures in the principal amount of \$3,612,888 and accrued interest of \$543,841 in exchange for 20,783,646 units. Each unit is comprised of one common share of the Company and one-half of one common share purchase warrant. Each whole warrant entitles the holder to acquire one additional common share at an exercise price of \$0.30 per share until June 13, 2028. The value of the liability at the time of conversion was \$3,492,863. The Company issued 20,783,646 common shares with a fair value of \$5,403,748 and recorded a loss on debt settlement of \$1,910,885.

On June 25, 2025, the Company converted the outstanding Debentures in the principal amount of \$475,000 and accrued interest of \$69,953 in exchange for 2,724,765 units. Each unit is comprised of one common share of the Company and one-half of one common share purchase warrant. Each whole warrant entitles the holder to acquire one additional common share at an exercise price of \$0.30 per share until June 25, 2028. In connection with the debt conversion, the Company has also accelerated the vesting of 1,025,000 previously issued Debenture Warrants. The value of the liability at the time of conversion was \$461,268. The Company issued 2,724,765 common shares with a fair value of \$653,944 and recorded a \$192,676 loss on debt settlement.

On July 22, 2025, the Company closed a private placement of units at a price of \$0.20 per unit and issued a total of 1,000,000 units for gross proceeds of \$200,000. Each unit is comprised of one common share and one-half common share purchase warrant. Each whole warrant entitles the holder to acquire an additional common share at a price of \$0.30 per share for three years from the date of issuance. The Company allocated all of the proceeds to common shares and \$nil to warrants. The Company incurred additional cash share issuance costs of \$7,362.

On August 22, 2025, the Company extinguished the remaining outstanding Debentures in the aggregate principal amount of \$275,430. \$205,430 of the principal was applied to the exercise of 2,054,300 previously issued Debenture warrants, resulting in the issuance of 2,054,300 common shares of the Company at a price of \$0.10 per share.

During the year ended March 31, 2026, the Company issued 453,976 common shares at a fair value of \$136,066 to settle accounts payable of \$110,512 pursuant to debt settlement agreements and recorded a \$25,554 loss on settlement of debt. The Company also issued 17,423,583 common shares for the exercise of options and warrants for gross proceeds of \$2,233,880 with a value of \$377,140 transferred from the share-based payment and warrants reserves to share capital as a result.

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

c) Stock Options

Pursuant to the Company's Omnibus Equity Incentive Compensation Plan (the "Plan"), the Company may grant securities to its directors, officers, consultants, and key employees to acquire a maximum number of 10% of the total issued and outstanding common shares of the Company. Stock options granted under the Plan are non-transferrable and are valid for a maximum of ten years from the date of issue. Vesting terms and conditions are determined by the Board of Directors at the time of the grant. The exercise price of the options is fixed by the Board of Directors of the Company at the time of the grant at the market price of the common shares, subject to all regulatory requirements.

A summary of the Company's stock option activity during the years presented is as follows:

	Number	Weighted Average Exercise Price
Outstanding and exercisable, March 31, 2024	9,720,000	\$ 0.38
Granted	3,425,000	0.14
Exercised	(1,075,000)	0.13
Cancelled	(2,490,000)	0.57
Expired	(750,000)	0.41
Outstanding and exercisable, March 31, 2025	8,830,000	\$ 0.26
Granted	1,375,000	0.31
Exercised	(710,000)	0.12
Expired	(1,750,000)	0.39
Outstanding and exercisable, March 31, 2026	7,745,000	\$ 0.25

During the year ended March 31, 2026, the Company recorded share-based payments of \$183,733 (2025 - \$331,670), in respect of the vesting of newly granted options.

The weighted average grant date fair value of the options, with no market conditions, granted during the year ended March 31, 2026, was \$0.13 per option (2025 - \$0.10 per option). The fair value of each option granted during the years ended March 31, 2026 and 2025 was estimated at the time of the grant using the Black-Scholes option pricing model with assumptions for grants as follows:

	March 31, 2026	March 31, 2025
Weighted average exercise price	\$0.31	\$0.14
Weighted average grant date share price	\$0.26	\$0.14
Risk-free interest rate	2.63%	3.68%
Expected life	3 years	5 years
Expected volatility	82%	87%
Dividend rate	0%	0%

Expected volatility has been determined using the share price of the Company for the period equivalent to the life of the options prior to grant date. The risk-free rate of return is the yield on a zero-coupon Canadian treasury bill of a term consistent with the assumed option life. The expected average option term is the average expected period to exercise, based on the historical activity patterns for each individually vesting tranche.

The weighted average remaining life of the options as at March 31, 2026 was 2.23 years (2025 - 2.59 years).

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

A summary of the Company's outstanding stock options as at March 31, 2026 is presented below:

Expiry date	Options Outstanding and Exercisable	Exercise Price
August 8, 2025 ⁽¹⁾	340,000	\$ 0.08
December 11, 2025 ⁽²⁾	240,000	\$ 0.35
May 26, 2026 ⁽³⁾	295,000	\$ 0.59
December 8, 2026	300,000	\$ 0.57
January 24, 2027	225,000	\$ 0.15
June 27, 2027	200,000	\$ 0.23
June 27, 2027	500,000	\$ 0.30
July 12, 2027	770,000	\$ 0.57
July 8, 2028	325,000	\$ 0.30
July 10, 2028	25,000	\$ 0.20
February 28, 2029	1,000,000	\$ 0.15
May 6, 2029	650,000	\$ 0.15
May 22, 2029	2,525,000	\$ 0.14
October 9, 2030	350,000	\$ 0.38
	7,745,000	

⁽¹⁾ These options, originally set to expire on August 8, 2025, have been extended due to a blackout period affecting the exercise of these options.

⁽²⁾ These options, originally set to expire on December 11, 2025, have been extended due to a blackout period affecting the exercise of these options.

⁽³⁾ Expired unexercised subsequent to March 31, 2026.

d) Finders Options

A summary of the Company's finders option activity during the years presented is as follows:

	Number	Weighted Average Exercise Price
Outstanding and exercisable, March 31, 2024	353,222	\$ 0.28
Expired	(174,222)	0.15
Outstanding and exercisable, March 31, 2025	179,000	\$ 0.40
Expired	(179,000)	0.40
Outstanding and exercisable, March 31, 2026	-	-

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

e) Warrants

A summary of the Company's warrant activity during the periods presented is as follows:

	Number Outstanding and Exercisable	Weighted Average Exercise Price (CAD)
Outstanding, March 31, 2024	46,160,230	\$ 0.19
Issued	15,262,900	0.11
Exercised	(5,662,000)	0.11
Expired	(228,000)	0.45
Outstanding, March 31, 2025	55,533,130	\$ 0.17
Issued	22,537,410	0.30
Exercised	(16,713,583)	0.13
Expired	(1,650,050)	0.48
Outstanding, March 31, 2026	59,706,907	\$ 0.23

On May 1, 2024, the Company amended the terms of 2,191,000 warrants with an exercise price of \$0.60 that were issued on May 30, 2022. The expiry date of the warrants was extended to May 30, 2025 and on February 20, 2025 was further extended to May 30, 2026. All other terms and conditions of the warrants remain unchanged.

On May 23, 2025, the Company amended the terms of 2,143,750 warrants with an exercise price of \$0.35 and 319,000 warrants with an exercise price of \$0.35 that were issued on June 15, 2023 and July 14, 2023 respectively. The expiry dates of the warrants have been extended to June 15, 2026 and July 14, 2026 respectively. All other terms and conditions of the warrants remain unchanged.

The fair value of the warrants issued during the years ended March 31, 2026 and 2025 was estimated at the time of the issue using the Black-Scholes option pricing model with assumptions as follows:

	March 31, 2026	March 31, 2025
Weighted average exercise price	\$0.30	\$0.15
Weighted average grant date share price	\$0.26	\$0.14
Risk-free interest rate	2.72%	4.32%
Expected life	3 years	2 years
Expected volatility	86%	86%
Dividend rate	0%	0%

The expected volatility is based on historical prices of the Company. The risk-free rate of return is the yield on a zero-coupon Canadian treasury bill of a term consistent with the assumed warrant life. The expected average term is the average expected period to exercise, based on the historical activity patterns for each individual tranche.

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

The weighted average remaining life of the warrants as at March 31, 2026 was 1.30 years (2025 - 1.55 years). A summary of the Company's outstanding warrants as of March 31, 2026 is presented below:

Expiry date	Warrants outstanding	Exercise price
May 14, 2026 ⁽¹⁾	3,011,250	\$ 0.50
May 30, 2026 ⁽¹⁾	2,191,000	\$ 0.60
June 15, 2026 ⁽¹⁾	2,131,250	\$ 0.35
July 14, 2026 ⁽¹⁾	269,000	\$ 0.35
December 29, 2026	10,385,000	\$ 0.10
January 26, 2027	7,700,000	\$ 0.10
May 2, 2027	3,000,000	\$ 0.16
May 2, 2027	8,664,000	\$ 0.10
June 13, 2028	20,551,280	\$ 0.30
June 25, 2028	1,304,127	\$ 0.30
July 22, 2028	500,000	\$ 0.30
	59,706,907	

⁽¹⁾ Expired unexercised subsequent to March 31, 2026.

f) Restricted share units

Restricted share units ("RSUs") granted under the Plan are non-transferrable and are valid for a maximum of three years from the date of issue. Vesting terms and conditions are determined by the Board of Directors at the time of the grant.

On February 20, 2025, the Company granted an aggregate of 1,375,000 RSUs to certain directors and a consultant pursuant to the Plan. The RSUs vest and convert into an equivalent number of common shares after one year.

On March 24, 2025, the Company granted an aggregate of 772,500 RSUs to an officer and a consultant. The RSUs vest and convert into an equivalent number of common shares after one year.

The fair value of the RSUs, which is determined with reference to the trading price of the Company's common shares on the date of issuance, was determined to be \$563,525. During the year ended March 31, 2026, \$519,567 (2025 - \$43,958) was recognized as share-based payment expense.

The continuity of RSUs for the years ended March 31, 2026 and 2025 is as follows:

	Number of RSUs Outstanding
Balance, March 31, 2024	-
RSUs issued	2,147,500
Balance and vested, March 31, 2025 and 2026	2,147,500

(Expressed in Canadian Dollars)

9. EXPLORATION AND EVALUATION EXPENDITURES

The Company holds interest in two projects located in Nevada, USA.

Fondaway Canyon and Dixie Comstock

On January 3, 2020, the Company executed a definitive agreement (the "Agreement") with Canagold Resources Ltd. ("Canagold"). Under the terms of the Agreement, the Company has acquired 100% of the Fondaway Canyon and Dixie Comstock properties located in Churchill County Nevada, by paying Canagold a total of US\$2,000,000 in cash and US\$2,000,000 in shares over 4 years and granting Canagold a 2% NSR in the projects (1% of the NSR can be bought out for US\$1,000,000 on each project). The Company also had work commitments totaling US\$1,450,000 over four years which were fully satisfied. Since all the payment terms have been satisfied, the Company now has 100% ownership of the Fondaway Canyon and Dixie Comstock properties.

In addition, the Company is responsible for making Advanced Royalty Payments ("ARPs") of US\$35,000 per year to the original title holder of the Fondaway Canyon property. The ARPs will be applied against the 3% NSR buyout option for US\$600,000. US\$490,000 has been paid to date.

The Company is responsible for an additional 2% NSR which can be bought out for US\$2,000,000.

The Canagold 2% NSR will only take effect upon the maturity of the 3% NSR to the original title holder. Upon payment of the ARPs to the original title holder prior to production and upon maximum allowable NSR buyouts of US\$3,000,000, the project would have an outstanding obligation of a 1% NSR.

The Company filed with Churchill County, Nevada, and the Bureau of Land Management, the staking of 69 claims on May 2, 2023, the staking of 6 claims on February 5, 2024, the staking of 7 claims on May 31, 2024, and the staking of 8 claims on December 27, 2024, which were additional unpatented mining claims at Fondaway Canyon bringing the total number of claims to 261 covering 4,623 acres (1,871 hectares).

The Company filed on May 31, 2024, with Churchill County, Nevada, and the Bureau of Land Management, the staking of 16 additional unpatented mining claims at the Dixie Comstock gold project bringing the total number of claims to 44 covering 725 acres (293.5 hectares).

On September 9, 2025, the Company, through its wholly owned subsidiary Getchell Gold Nevada Inc., entered into a mining lease agreement (the "Lease Agreement") with Montana Goldfields LLC ("Montana"), pursuant to which the Company will lease the Dixie Comstock Property to Montana for the purposes of exploration for, and the development of, mining and processing of minerals for a term of 20 years. Under the terms of the Lease Agreement, Montana paid the Company US\$25,000 upon the execution of the Lease Agreement.

In addition, Montana has agreed to pay the Company minimum advance royalty payments in the amount of US\$25,000 on or before the first anniversary of the lease, and each year thereafter throughout the term of the lease. Montana is also subject to annual minimum work commitments of US\$100,000 in the first year, US\$200,000 in the second year, and US\$300,000 in the third year and every year thereafter. Upon commencement of commercial production, Montana will pay the Company a 2% NSR. The lease also grants Montana the option to purchase up to 1% of the 2% NSR for a cash payment of US\$1,000,000, and the option to purchase up to 1% of the existing AIM NSR for an additional US\$1,000,000.

During the year ended March 31, 2026, the bonus and rental income of US\$25,000 (\$34,550) has been charged and classified as other income in the consolidated statements of loss and comprehensive loss.

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

Star

The Company held a 100% interest in the Star project located in Pershing County Nevada, USA. A portion of the Star claim group was subject to a mining lease agreement between Getchell Gold Nevada Inc. and RS Gold, LLC, the "Owner" dated June 26, 2010, amended on May 1, 2015, and further amended on June 1, 2020. The remainder of the Star claim group was controlled via staking.

On April 15, 2025, the Company terminated the Star Mining Lease and returned all claims and data to the underlying owner.

Hot Springs Peak

The Bureau of Land Management raised the annual claim filing fees from US\$165 per claim to US\$200 per claim. As a result, the Company reviewed all claim packages and, while enlarging the more advanced stage projects, elected not to renew the less advanced stage Hot Springs Peak claim package.

Expenditures

Exploration and evaluation expenditures for the year ended March 31, 2026 were as follows:

	Star	Hot Springs Peak	Fondaway Canyon	Dixie Comstock	Total
	\$	\$	\$	\$	\$
Claim fees	-	-	78,500	-	78,500
Drilling	-	-	1,502,768	-	1,502,768

(Expressed in Canadian Dollars)

10. CAPITAL MANAGEMENT

The Company manages its shareholders' (deficiency) equity as capital, making adjustments based on available funds, to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties to which the Company currently has an interest are in the exploration stage and as such, the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration as well as satisfy administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company will continue to assess new properties should sufficient geological or economic potential be demonstrated and if the Company has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach is reasonable given the current size of the Company. There were no changes to its capital management approach during the years ended March 31, 2026 and 2025. Neither the Company nor its subsidiaries are subject to externally imposed capital requirements.

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern. The Company is dependent on external debt and the capital markets to finance exploration and development activities.

11. SEGMENTED INFORMATION

The Company has one operating segment: the acquisition, exploration and development of precious and base metal mineral resource properties located in Nevada, USA. Geographic segment information of the Company's non-current assets as at March 31, 2026 and 2025 is as follows:

Non-current assets	March 31 2026	March 31 2025
	\$	\$
Canada	68	151
USA	90,182	101,677
Total	90,250	101,828

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company is exposed through its operations to the following financial risks:

- Market Risk
- Liquidity Risk
- Credit Risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies, and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these consolidated financial statements.

There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous years unless otherwise stated in the note.

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices are comprised of three types of risk: foreign currency risk, interest rate risk, and commodity price risk.

Foreign Currency Risk

Given the global nature of the Company's business, the Company's operating businesses, financial reporting results and cash flows are exposed to risks associated with foreign currency fluctuations. For the current fiscal year, management estimates that if the United States dollar had weakened or strengthened by 10% against the Canadian dollar, the resulting change would result in an increase/decrease of approximately \$7,704 (2025 - \$10,237). Included in cash and cash equivalents is US\$11,291 (\$15,739) (2025 - US\$44,949 (\$64,619)), prepaid expenses is US\$167,807 (\$233,906) (2025 - US\$33,532 (\$48,206)), and accounts payable and accrued liabilities is US\$123,826 (\$172,601) (2025 - US\$7,270 (\$10,452)) denominated in foreign currency.

Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The risk that the Company will realize such a loss is limited because the Company does not have any interest-bearing debt instruments as at March 31, 2026.

Commodity Price Risk

The ability of the Company to develop its mineral properties and the future profitability of the Company is directly related to the market price of precious metals. The Company closely monitors commodity prices to determine the appropriate course of action to be taken. Based on management's knowledge and expertise of the financial markets, the Company believes that commodity price risk is not relevant as the Company is not a producing entity.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The key to success in managing liquidity is the degree of certainty in the cash flow projections. If future cash flows are fairly uncertain, the liquidity risk increases.

At March 31, 2026, the Company had a cash and cash equivalents balance of \$3,139,482 (2025 - \$1,081,648) and current liabilities of \$262,016 (2025 - \$101,259). Included in the cash equivalents are cashable guaranteed investment certificates for a total of \$3,100,000, which bear interest at 2.95% and mature between May 13, 2026 and June 17, 2026 (2025 - \$675,000, with interest at prime minus 2.25% and maturing on May 10, 2025).

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

The following is a summary of the Company's material contractual obligations (representing undiscounted contractual cash flows):

	Due within			Over 3	
	1 Year	2 Years	3 Years	Years	Total
Accounts payable and accrued liabilities	\$ 248,561	\$ -	\$ -	\$ -	\$ 248,561
Lease liability	13,768	-	-	-	13,768
Total	\$ 262,329	\$ -	\$ -	\$ -	\$ 262,329

Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or a counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk in its cash and cash equivalents. The maximum credit risk represented by the Company's financial assets is represented by their carrying amounts. Concentration of credit risk exists with respect to the Company's cash and cash equivalents as substantially the entire amount is held at a single major Canadian financial institution. Credit risk on cash and cash equivalents is minimized by depositing with only reputable financial institutions.

Determination of Fair Value

For financial instruments held by the Company, management classifies cash and cash equivalents as FVTPL, and accounts payable and accrued liabilities and leases as amortized cost.

Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

The consolidated statements of financial position carrying amounts for cash and cash equivalents and accounts payable and accrued liabilities approximate fair value due to their nature and relatively short maturity dates or durations. Fair values of leases are determined with reference to level 2 inputs within the fair value hierarchy. Due to the use of subjective judgments and uncertainties in the determination of fair values, these values should not be interpreted as being realizable in an immediate settlement of the financial instruments.

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

13. COMMITMENTS AND CONTINGENCIES

Title to Mineral Properties

On February 23, 2026, the Company announced that it became aware that NV Minerals Corp. ("NV Minerals") has filed mineral claims overlapping certain of the Company's existing claims at the Fondaway Canyon project in Nevada.

On April 27, 2026, the Company provided an update on the related legal proceedings. NV Mineral filed a complaint against the Company, alleging claims for quiet title and declaratory relief related to mining claims based on a purported "long ago" forfeiture of claims. Pursuant to Federal Rules of Civil Procedure, the Company filed its verified answer and counterclaims. Getchell is asserting counterclaims for quiet title and declaratory relief.

The Company believes that the NV Minerals complaint is without merit. The mineral claims tenure at Fondaway has been continuously held and maintained by the Company (and predecessors) in an uninterrupted manner since the mid 1950's as is presently reflected in the claims' good and active standing in the records of both the United States' Bureau of Land Management and Churchill County. Therefore, it is Getchell's position the NV Minerals claims are junior in time and right to the Getchell claims and purport to cover lands that were not open to staking at the time of their purported location.

Environmental contingencies

The Company's exploration activities are subject to various international laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive.

The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

14. INCOME TAXES

a) Provision for income taxes

The major items causing the Company's income tax expense to differ from the Canadian combined federal and provincial statutory rate of 27% at March 31, 2026 (2025 - 27%) were:

	March 31, 2026	March 31, 2025
	\$	\$
Net loss for the year before income taxes	(6,964,811)	(3,185,244)
Expected income taxes (recoverable) at statutory rates	(1,880,499)	(844,279)
Changes resulting from:		
Expenses not deductible for tax purposes	229,823	101,420
Under/(over) provided in prior period	-	(2,549,189)
Tax benefits not recognized	1,650,676	3,287,250
Deferred income tax provision	-	-

GETCHELL GOLD CORP.
Notes to the Consolidated Financial Statements
For the years ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)

b) Deferred income tax balances

The Company has deferred tax assets not recognized as follows:

	March 31, 2026	March 31, 2025
	\$	\$
Non-capital losses	10,405,104	6,840,137
Property and Equipment	171	171
Capital losses	7,918	7,918
Mineral properties	3,681	3,681
Other	-	(170,900)
Deferred income tax assets	10,416,874	6,851,907

The Company has approximately \$31,635,222 of non-capital losses in Canada and in the US which, under certain circumstances, can be used to reduce the taxable income of future years. The losses expire in the following periods:

Year	Amount
	\$
2027	25,000
2028	61,000
2029	52,000
2030	50,000
2031	43,000
2032	179,000
2033	305,000
2034	105,000
2035	424,000
2036	43,000
2037	660,000
2038	92,000
2039	461,000
2040	931,000
2041	1,514,000
2042	1,165,000
2043	1,132,000
2044	1,379,000
2045	1,438,000
2046	3,103,000
No year of expiry	18,473,222
	<u>31,635,222</u>
