WISR AI ANNOUNCES ADOPTION OF SEMI-ANNUAL FINANCIAL REPORTING

Vancouver, British Columbia – November 25, 2026 - Wisr AI Systems Inc. (CSE: WISR) ("Wisr AI" or the "Company"), a provider of agentic AI-powered cybersecurity and third-party risk intelligence solutions, announces that it has elected to adopt semi-annual financial reporting ("SAR") in reliance on Coordinated Blanket Order 51-933 *Exemptions to Permit Semi-Annual Reporting for Certain Venture Issuers* issued by the British Columbia Securities Commission on March 19, 2026 (the "Blanket Order").

The Blanket Order allows eligible venture issuers listed on the Canadian Securities Exchange (the "CSE") to voluntarily transition from quarterly to semi-annual financial reporting. By adopting SAR, the Company aims to reduce the administrative and financial burden associated with quarterly reporting and to allocate additional time and resources toward advancing its business objectives.

The Company's fiscal year ends on June 30. Under SAR, the Company will no longer file interim financial reports and related Management's Discussion & Analysis ("MD&A") for its three-month and nine-month interim periods. The first interim period for which the Company will rely on the exemption is the three-month period ended September 30, 2026, and the Company's first SAR period will be the six-month period ending December 31, 2026. The Company intends to continue reporting on a semi-annual basis, subject to the continued availability of the Blanket Order and the Company remaining eligible thereunder.

The Company will continue to file audited annual financial statements and related MD&A, as well as interim financial statements and related MD&A for its six-month periods, in accordance with applicable securities laws. The Company will also continue to comply with its timely disclosure obligations under National Instrument 51-102 *Continuous Disclosure Obligations* and the policies of the CSE.

This news release is being filed pursuant to the Blanket Order.

About Wisr AI Systems Inc.

Wisr AI Systems Inc. (CSE: WISR) is a Vancouver-based technology company building agentic AI platforms that predict, prioritize, and monitor cyber and third-party risk. Its solutions help enterprises ingest and interpret real-time global signals to manage complex vendor ecosystems and supply chains more intelligently. Wisr AI empowers organizations with dynamic risk visibility and actionable intelligence to support stronger cybersecurity governance and operational resilience.

Forward-Looking Information:

This news release may contain statements that constitute "forward-looking information" within the meaning of applicable securities laws, including statements regarding the plans, intentions, beliefs and current expectations of the Company with respect to future business activities and operating performance. Forward-looking information is often identified by the words "may", "would", "could", "should", "will", "intend", "plan", "anticipate", "believe", "estimate", "expect" or similar expressions and includes information regarding, among other things, economic, business, and/or competitive factors.

Investors are cautioned that forward-looking information is not based on historical facts but instead reflects expectations of the Company's management, estimates or projections concerning future results or events based on the opinions, assumptions and estimates of management considered reasonable at the date the statements are made. Although the Company believes that the expectations reflected in such forward-looking information are reasonable, such information involves risks and uncertainties, and undue reliance should not be placed on such information, as unknown or unpredictable factors could have material adverse effects on future results, performance or achievements of the Company. Among the key factors that could cause actual results to differ materially from those projected in the forward-looking information are the following: changes in general economic, business and political conditions, including changes in the financial markets; changes in applicable laws; and compliance with extensive government regulation. This forward-looking information may be affected by risks and uncertainties in the business of the Company and market conditions.

Should one or more of these risks or uncertainties materialize, or should assumptions underlying the forward-looking information prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated or expected. Although the Company has attempted to identify important risks, uncertainties and factors which could cause actual results to differ materially, there may be others that cause results not to be as anticipated, estimated or intended. The Company does not intend, and does not assume any obligation, to update this forward-looking information except as required by applicable law.
