

FORM 2A

LISTING STATEMENT

This Listing Statement must be used for all initial applications for listing and for Issuers resulting from a fundamental change. The Exchange requires prospectus level disclosure in the Listing Statement (other than certain financial disclosure and interim Management's Discussion and Analysis) and can require that the Issuer include additional disclosure.

General Instructions

- (a) Please prepare this Listing Statement using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the following items must be in narrative form. When the answer to any item is negative or not applicable to the Issuer, state it in a sentence. The title to each item must precede the answer.
- (b) In this form, the term "Issuer" includes the applicant Issuer and any of its subsidiaries.
- (c) In determining the degree of detail required, a standard of materiality should be applied. Materiality is a matter of judgment in a particular circumstance, and should generally be determined in relation to an item's significance to investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the Issuer's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items should be considered individually rather than on a net basis, if the items have an offsetting effect. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.
- (d) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation.
- (e) For Issuers that are re-qualifying for listing following a fundamental change, provide historic and current details on
 - (i) the Issuer
 - (ii) all other companies or businesses that are involved in the fundamental change (the "target"); and
 - (iii) the entity that will result from the fundamental change (the "New Issuer").

Information concerning the Issuer that was contained in the most recent Listing Statement may be incorporated by reference, but this statement must indicate if any of the information in the prior statement has changed (e.g. describing a business that will no longer be undertaken by the New Issuer). Information concerning assets or lines of business of the target that will not be part of the New Issuer's business should not be included.

- (f) This Listing Statement provides prospectus-level disclosure. It will be amended from time to time to reflect any changes to the prospectus disclosure requirements. If changed, the new form is to be used for the next listing statement the Issuer is required to file. The Issuer does not have to amend a listing statement currently on file to reflect any new disclosure requirements.

6. Management's Discussion and Analysis

General Instructions and Interpretation

Provide MD&A for the most recent annual financial statements filed with the application for listing (or filed since the last update of the listing statement, and interim MD&A for each interim financial statement filed with the application for listing (or filed since the last update of the quotation statement). The first interim MD&A will update the annual MD&A, and each subsequent interim MD&A will update the previous interim MD&A. If the Issuer includes annual income statements, statements of retained earnings, and cash flow statements for three financial years under Section 5, provide MD&A for the second most recent annual financial statements of the Issuer.

What is MD&A? — MD&A is a narrative explanation, through the eyes of management, of how an Issuer performed during the period covered by the financial statements, and of an Issuer's financial condition and future prospects. MD&A complements and supplements your financial statements, but does not form part of your financial statements. Management's objective when preparing the MD&A should be to improve the Issuer's overall financial disclosure by giving a balanced discussion of the Issuer's results of operations and financial condition including, without limitation, such considerations as liquidity and capital resources - openly reporting bad news as well as good news.

MD&A should help current and prospective investors understand what the financial statements show and do not show; discuss material information that may not be fully reflected in the financial statements, such as contingent liabilities, defaults under debt, off-balance sheet financing arrangements, or other contractual obligations; discuss important trends and risks that have affected the financial statements, and trends and risks that are reasonably likely to affect them in

the future; and provide information about the quality, and potential variability, of the Issuer's earnings and cash flow, to assist investors in determining if past performance is indicative of future performance.

Date of Information — In preparing the MD&A, management must take into account information available up to the date of the MD&A. If the date of the MD&A is not the date it is filed, management must ensure the disclosure in the MD&A is current so that it will not be misleading when it is filed.

Explain the Analysis — Explain the nature of, and reasons for, changes in the Issuer's performance. Do not simply disclose the amount of change in a financial statement item from period to period. Avoid using boilerplate language. The discussion should assist the reader to understand trends, events, transactions and expenditures.

Focus on Material Information — Management does not need to disclose information that is not material. Exercise judgment when determining whether information is material.

What is Material? — Would a reasonable investor's decision whether or not to buy, sell or hold the Issuer's securities likely be influenced or changed if the information in question was omitted or misstated? If so, the information is likely material. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.

Forward-Looking Information — Management is encouraged to provide forward-looking information if it has a reasonable basis for making the statements. Preparing MD&A necessarily involves some degree of prediction or projection. For example, MD&A requires a discussion of known trends or uncertainties that are reasonably likely to affect the Issuer's business. However, MD&A does not require that the Issuer provide a detailed forecast of future revenues, income or loss or other information. All forward-looking information must contain a statement that the information is forward-looking, a description of the factors that may cause actual results to differ materially from the forward-looking information, management's material assumptions and appropriate risk disclosure and cautionary language.

The MD&A must discuss any forward-looking information disclosed in MD&A for a prior period which, in light of intervening events and absent further explanation, may be misleading. Forward looking statements may be considered misleading when they are unreasonably optimistic or aggressive, or lack objectivity, or are not adequately explained. Reverse Takeover Transactions — When an acquisition is accounted for as a reverse takeover, the MD&A should be based on the reverse takeover acquirer's financial statements.

Foreign Accounting Principles — If the Issuer's primary financial statements have been prepared using accounting principles other than Canadian GAAP and a reconciliation is provided, the MD&A must focus on the primary financial statements.

Resource Issuers — If the Issuer has mineral projects, the disclosure must comply with National Instrument 43-101 Standards of Disclosure for Mineral Projects, including the requirement that all scientific and technical disclosure be based on a technical report or other information prepared by or under the supervision of a qualified person. If the Issuer has oil and gas activities, the disclosure must comply with National Instrument 51-101 Standards of Disclosure for Oil and Gas Activities.

US issuers –

(1) If the Issuer is a US issuer, for any MD&A that is included in the Listing Statement, include the disclosure prepared in accordance with subsection (2) if the Issuer:

(a) has based the discussion in the MD&A on financial statements prepared in accordance with U.S. GAAP, and

(b) is required by subsection 4.1(1) of NI 52-107 to provide a reconciliation to Canadian GAAP.

(2) In the disclosure required under subsection (1) restate, based on financial information of the Issuer prepared in accordance with, or reconciled to, Canadian GAAP, those parts of the MD&A that are based on financial statements of the Issuer prepared in accordance with U.S. GAAP, and would contain material differences if they were based on financial statements of the Issuer prepared in accordance with Canadian GAAP.
