Part 2. Acquisition

1. Provide details of the assets to be acquired by the Issuer (including the location of the assets, if applicable). The disclosure should be sufficiently complete to enable a reader to appreciate the significance of the transaction without reference to any other material: The Issuer proposes to acquire an initial 85% undivided legal and beneficial interest in the Stealthwall West Project, comprising 50 contiguous Québec mining claims, CDC 2865583 through CDC 2865632, inclusive. The claims are located on NTS map sheet 23C10 in the unorganized territory of Rivière-Mouchalagane, MRC de Caniapiscau, Côte-Nord, Québec, and cover 2,612.50 hectares. The acquisition also includes related mineral rights and available non-privileged technical data, samples, maps, reports and project records controlled by the vendors.

2. Provide details of the acquisition including the date, parties to and type of agreement (eg: sale, option, license etc.) and relationship to the Issuer. The disclosure should be sufficiently complete to enable a reader to appreciate the significance of the acquisition without reference to any other material: The Issuer entered into a property acquisition and option agreement made as of August 17, 2026 (the “Agreement”) with the parties comprising the Stealthwall West Syndicate, acting through their appointed representative, and with the three residual holders identified below. The Agreement provides for an initial 85% acquisition, $75,000 of deferred consideration, a contemplated option to acquire the remaining 15%, residual-holder contribution/conversion rights and two separate 1.0% NSR royalties. Following the initial acquisition, Dumasbancorp Ltée, Campbell Becher and Félix Bélanger Lebel will each retain a 5.00% undivided interest.

3. Provide the following information in relation to the total consideration for the acquisition (including details of all cash, securities or other consideration) and any required work commitments:

   (a) Total aggregate consideration in Canadian dollars: $435,000 for the initial 85% acquisition.

   (b) Cash: $75,000 of deferred consideration may be paid in cash on or before six months after closing. If not paid in cash, not cancelled on a permitted abandonment, and the Issuer continues to hold its interest on the first anniversary, it is payable in common shares as described below.

   (c) Securities (including options, warrants etc.) and dollar value: 3,600,000 common shares at a deemed price of $0.10 per share, for $360,000. Any shares issued for the $75,000 deferred consideration will be priced at the lowest price then permitted by the CSE using the maximum permitted discount, subject to CSE acceptance and applicable securities laws.

(d) Future contingent securities: If the Issuer exercises the option for the remaining 15%, the $400,000 option price consists of $75,000 cash and common shares having a deemed value of $325,000, priced at the lowest price then permitted by the CSE using the maximum permitted discount. If residual interests are converted after the contribution trigger, aggregate conversion consideration may include $200,000 in shares and $50,000 cash. All future issuances remain subject to separate CSE acceptance and applicable securities laws.

(e) Other: At initial closing the Project will become subject to 1% NSR royalty in favour of. Dumasbancorp Ltée and a separate 1.0% NSR royalty in favour of Félix Bélanger Lebel. The royalties are independent of their respective residual interests, are perpetual, are not subject to a Company buyback unless separately agreed by the applicable holder, and survive any later acquisition by the Issuer of 100% of the Property. Campbell Becher receives no NSR royalty.

(f) Expiry date of options, warrants, etc. if any: Not applicable, no convertible securities are being issued in connection with the acquisition of the Stealthwall West Project.

(g) Exercise price of options, warrants, etc. if any: Not applicable.

(h) Work commitments: No fixed minimum work commitment forms part of the initial acquisition consideration, a surface exploration program with an indicative planning budget of approximately $120,00 is being organized; the amount is an estimate only and not a minimum expenditure commitment.

4. State how the purchase or sale price was determined (e.g. arm's-length negotiation, independent committee of the Board, third party valuation etc). The purchase price was established through commercial negotiation between the Issuer and the Vendors. Management considered the size and contiguous nature of the claim package, tenure, available public-domain geological information, the early-stage exploration setting, anticipated title and technical work, and the staged path to potential 100% ownership.

5. Provide details of any appraisal or valuation of the subject of the acquisition known to management of the Issuer: No formal independent appraisal, fairness opinion or third-party valuation has been obtained by management. Management has prepared internal acquisition-value support. Historical scientific and technical information is contextual only, has not been independently verified by the Issuer and is not a mineral resource or reserve estimate.
