FORM 7

MONTHLY PROGRESS REPORT

Name of Listed Issuer: **Myriad Uranium Corp. (the "Issuer", the "Company" or "Myriad")**

Trading Symbol: **M**

Number of Outstanding Listed Securities: **113,873,714 (as of July 31, 2026)**

Date: **August 7, 2026**

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

(a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.

(b) The term "Issuer" includes the Issuer and any of its subsidiaries.

(c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

   Myriad Uranium Corp. holds a 75% interest in the Copper Mountain Uranium Project in Wyoming, USA, with a definitive agreement in place to acquire the remaining 25% via the acquisition of Rush Rare Metals Corp. Copper Mountain hosts multiple historic uranium deposits and past-producing mines, including the Arrowhead Mine (approximately 500,000 lbs U_3O_8

produced). Union Pacific conducted extensive exploration and development in the district during the late 1970s, including approximately 2,000 boreholes and advanced mine planning, before the uranium market downturn in 1980. Union Pacific is estimated to have invested approximately C$125 million (2026 dollars) in the project, generating significant historical resource estimates.

A news release detailing a comprehensive assessment of Copper Mountain's uranium endowment by Bendix Engineering for the US Department of Energy published in 1982 can be viewed here.

Myriad holds a 10% free carried interest in the Red Basin Uranium Project, recently sold to 8VC- and Overmatch-backed Subatomic Industries. Red Basin carries significant historical resource estimates from extensive drilling by Occidental Oil in the late 1970s, and also hosts vanadium, which has been designated a strategic and critical mineral by the U.S. government. Note the caution on historical estimates below.

Myriad's 100%-owned Breccia Pipe Project in Arizona comprises at least 23 breccia pipes that are prospective for uranium and REEs. One of the pipes, the Wate Pipe, was previously owned and explored by Energy Fuels and is the subject of a historical resource estimate. The Breccia Pipe Project has been optioned to Wedgemount Resources (release here).

Note: A qualified person has not done sufficient work to classify the Copper Mountain, Red Basin, and Breccia Pipe Project historical estimates as current mineral resources or reserves and Myriad is not treating historical estimates as current resources or reserves. Myriad intends to conduct further work to determine whether the historical estimates can be verified and, if appropriate, supported by current mineral resource estimates.

On July 2, 2026, the Company announced that Phase II drilling at the Copper Mountain Uranium Project in Wyoming had commenced. See the Company's news release dated July 2, 2026 for further information.

On July 13, 2026, the Company announced that Rush Rare Metals Corp. ("Rush") had filed its management information circular (the "Circular") and related materials for Rush's annual general and special meeting (the "Meeting") of shareholders ("Rush Shareholders") at which, among other things, the Rush Shareholders will be asked to consider and vote on a special resolution (the "Arrangement Resolution") approving a statutory plan of arrangement (the "Arrangement") under which Myriad will acquire 100% of the issued and outstanding common shares of Rush (the "Rush Shares"). The Meeting is scheduled to take place on August 17, 2026 at 10:00 a.m. (Pacific time) at Suite 605, 1125 Howe Street, Vancouver, B.C. For the Arrangement to become effective, the Arrangement Resolution must first be approved at the Meeting by the affirmative vote of at least two-thirds (66 $^{2}/_{3}$%) of the votes cast by Rush Shareholders. See the Company's news release dated July 13, 2026 for further information.
