Nuinsco Announces Adoption of Semi-Annual Reporting

Toronto, October 9, 2026 – Nuinsco Resources Limited ("**Nuinsco**" or the "**Company**") (CSE: NWI, FRA: NJX) today announced that it has elected to rely on Coordinated Blanket Order 51-933 *Exemptions to Permit Semi-Annual Reporting for Certain Venture Issuers* (the "**Blanket Order**") and adopt semi-annual financial reporting, beginning with its third-quarter reporting period ended September 30, 2026.

The Blanket Order permits eligible venture issuers to voluntarily move from quarterly to semi-annual financial reporting by providing exemptions from the requirement to file interim financial reports and related management's discussion and analysis ("**MD&A**") for their first and third quarters.

The Company has filed its interim financial reports and related MD&A for the three months ended March 31, 2026 and the six months ended June 30, 2026. Having now satisfied the eligibility requirements under the Blanket Order, the Company will first rely on the exemption for the nine-month interim period ended September 30, 2026. Accordingly, Nuinsco will not file an interim financial report or related MD&A for that period.

Nuinsco's financial year ends on December 31. Under the semi-annual reporting framework, the Company will continue to file:

- Audited annual financial statements and related annual MD&A within 120 days of its financial year-end; and
- Six-month interim financial reports and related MD&A within 60 days of June 30 each year.

The Company's next scheduled financial reporting will therefore be its audited annual financial statements and related MD&A for the year ending December 31, 2026.

The Company intends to continue relying on the exemption for subsequent first- and third-quarter reporting periods, subject to its continued eligibility and the availability of the applicable exemptions. Adopting semi-annual reporting is intended to reduce reporting costs and administrative requirements, allowing management to devote additional resources to advancing the Company's exploration and development activities.

Nuinsco will continue to comply with its other continuous disclosure obligations, including timely disclosure of material changes and applicable Canadian Securities Exchange reporting requirements.

This news release is being filed pursuant to Coordinated Blanket Order 51 – 933 Exemptions to Permit Semi-Annual Reporting for Certain Venture Issuers.

About Nuinsco Resources Limited

Nuinsco Resources has more than 50 years of exploration success and is a growth-oriented, multi-commodity mineral exploration and development company focused on prospective opportunities in Canada and internationally. Currently the Company has the large multi-commodity (phosphate, rare earth element, niobium, tantalum) Prairie Lake Project near Marathon-Terrace Bay, the Zig Zag Lake Property (lithium, tantalum) near Armstrong currently operated as a joint venture with First Class Metals PLC, the Paradise Lake gold project in central Newfoundland, and retains a NSR royalty on the Sunbeam Gold Property near Atikokan.

Forward-Looking Statements

*The information in this news release may contain forward-looking statements or information (collectively, "**FLI**") within the meaning of applicable Canadian securities legislation. FLI is based on expectations, estimates, projections, and interpretations as at the date of this document.*

All statements, other than statements of historical fact, included herein are FLI that involve various risks, assumptions, estimates and uncertainties. Generally, FLI can be identified by the use of statements that include, but are not limited to, words such as "seeks", "believes", "anticipates", "plans", "continues", "budget", "scheduled", "estimates", "expects", "forecasts", "intends", "projects", "predicts", "proposes", "potential", "targets" and variations of such words and phrases, or by statements that certain actions, events or results "may", "will", "could", "would", "should" or "might", "be taken", "occur" or "be achieved."

FLI in this document may include but is not limited to: statements regarding continued eligibility and the availability of the applicable exemptions allowing it to continue reporting on a semi-annual basis.

FLI is designed to help you understand management's current views of its near- and longer-term prospects, and it may not be appropriate for other purposes. FLI by their nature are based on assumptions and involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance, or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such FLI. Although the FLI contained in this document is based upon what management believes, or believed at the time, to be reasonable assumptions, the Company cannot assure shareholders and prospective purchasers of securities of the Company that actual results will be consistent with such FLI, as there may be other factors that cause results not to be as anticipated, estimated or intended, and neither the Company nor any other person assumes responsibility for the accuracy and completeness of any such FLI. Except as required by law, the Company does not undertake, and assumes no obligation, to update or revise any such FLI contained in this document to reflect new events or circumstances. Unless otherwise noted, this document has been prepared based on information available as of the date of this document. Accordingly, you should not place undue reliance on the FLI, or information contained herein.

Furthermore, should one or more of the risks, uncertainties or other factors materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in FLI.

Assumptions upon which FLI is based, without limitation, include: the results of exploration activities and metallurgical studies; the Company's financial position and general economic conditions; the ability of exploration activities to accurately predict mineralization; the accuracy of geological modelling; the ability of the Company to complete further exploration activities; the legitimacy of title and property interests in the Deposits; the accuracy of key assumptions; the ability of the Company to obtain required approvals; geological, mining and exploration technical problems; failure of equipment or processes to operate as anticipated; the evolution of the global economic climate; metal prices; foreign exchange rates; environmental expectations; community and non-governmental actions; and, the Company's ability to secure required funding. Risks and uncertainties about The Company's business are discussed in the disclosure materials filed with the securities regulatory authorities in Canada, which are available at www.sedarplus.ca.
