First Tellurium Announces Upcoming Launch of 2026 Exploration at Deer Horn Property

Vancouver, BC, Canada, July 13, 2026 – Vancouver, BC – First Tellurium Corp. (CSE: FTEL, OTC: FSTTF) announces that, with its exploration permit approved for commencement of work July 15, the Company will begin mobilizing crews on its Deer Horn polymetallic property in west-central British Columbia.

"Continuing with the positive results at Deer Horn in recent years, we have multiple targets to explore on the property," said First Tellurium President and CEO Tyrone Docherty. "We're anxious to follow up on the previous rounds of work and discoveries."

Deer Horn represents a unique mineral asset. Exploration to date has outlined a 17.5 square-kilometer mineral zone that includes a copper-gold porphyry with extensive bornite on surface and a 2.4 kilometer strike length of high-grade gold, silver and tellurium.

Click here for a news release that provides more detail on the mineral zone and copper-gold porphyry.

The disclosure of technical or scientific information related to the Deer Horn Project in the linked news release was reviewed and approved by Dr. Lee Groat, Ph.D, P.Geo, Technical Advisor to First Tellurium, who is a qualified person within the context of NI 43-101.

About First Tellurium Corp.
