SASQUATCH RESOURCES CLOSES OVER-SUBSCRIBED PRIVATE PLACEMENT

Vancouver, British Columbia – August 27, 2026 – **SASQUATCH RESOURCES CORP.** (**CSE: SASQ**) (“**Sasquatch**” or the “**Company**“) is pleased to announce that it has closed its previously announced non-brokered private placement (the “Financing”) (see Sasquatch’s news release dated August 11, 2026), raising gross proceeds of $671,000. Under the Financing, the Company issued: an aggregate of 4,435,000 common shares of the Company (each, a “Share”) at a price of $0.10 per Share for gross proceeds of $443,500; and an aggregate of 1,820,000 “flow-through” common shares of the Company (each, a “FT Share”) at a price of $0.125 per FT Share for gross proceeds of $227,500.

The Company intends to use the proceeds from the sale of the Shares for general working capital and to use the proceeds from the sale of the FT Shares to incur eligible “Canadian exploration expenses” (“CEE”) that are “flow-through mining expenditures” (as such term is defined in the *Income Tax Act* (Canada)). In connection with the Financing, the Company paid aggregate finder’s fees of $5,220. The Shares and FT Shares issued under the Financing are be subject to a four month hold period expiring December 28, 2026, in accordance with applicable Canadian securities laws.

Directors and officers of the Company participated in the Financing, which is considered to be a “related party transaction” as defined under Multilateral Instrument 61-101 (“MI 61-101”). The related party transaction is exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as the fair market value of the transaction does not exceed 25% of the market capitalization of the Company, as determined in accordance with MI 61-101. In considering and unanimously approving the Financing, there were no materially contrary views, abstentions (except for any abstentions required by corporate law) or material disagreements by any director of the Company. The Company did not file a material change report at least 21 days before closing the Financing, which is reasonable given the MI 61-101 exemptions noted above.

About the Company

Sasquatch Resources Corp. is a mineral exploration company primarily focused on reclamation of waste rock, both at legacy mine sites and in areas where logging roads have encountered and been constructed with significant volumes of mineralized material. In many cases, waste rock at such sites is easily accessible, occurs in significant volumes, and can contain potentially economic grades of copper, gold, silver and other valuable minerals. Removing the high-sulphide material from the waste at these sites (which includes both valuable minerals but also potentially harmful elements such as sulphur, lead and arsenic) can often be effectively done through a relatively simple ore-sorting process, and the high-sulphide material can be removed from the site and sold to an existing end processor. This process can allow the Company to address environmental and other hazards while adding critical minerals and other valuable elements to the supply chain, all while minimizing the need to add new mines and/or mining infrastructure. To this end, the Company has acquired and is assessing a number of project areas that have waste rock potential, including the Mount Sicker Property in southern Vancouver Island, British Columbia, the Blue Grouse Property, located about 30km from the Mount Sicker Property on the south side of Lake Cowichan, the Santana Property (the area known as the former Santana mine) on Quadra Island, British Columbia, the Alberni Claim Group (about 90km from Mount Sicker), and the Slesse Property near Chilliwack, British Columbia.
