

SYNERGY ANNOUNCES COMMENCEMENT OF TRADING ON THE CSE

VANCOUVER, BC / THENEWSWIRE / August 26, 2026 – Synergy Metals Corp. (CSE: SYN) ("Synergy", or the "Company") is pleased to announce that it has received final approval for listing from the Canadian Securities Exchange (the "CSE"). The common shares of the Company (CUSIP 87170Q103 / ISIN CA87170Q1037) have commenced trading on the CSE under the symbol "SYN" on August 26, 2026.

The listing of Synergy on the CSE follows the completion of a previously announced plan of arrangement under the *Business Corporations Act* (British Columbia) with Element79 Gold Corp., and the merger with 1425957 B.C. Ltd.

Mr. Michael Smith, Chief Executive Officer of the Company, commented: "Today Synergy stands on its own. Dale is where this company begins – 98 claims across approximately 1,980 hectares in the Swayze Greenstone Belt, ground on the southwestern extension of the Abitibi that has seen remarkably little modern work and no drilling at all. A belt that has produced gold for more than a century, and a project that has never been properly tested: that combination is precisely why Dale deserved a company of its own. We now have the focus, the currency and the mandate to do the work, and I intend for Synergy to be judged on what we put in the ground. Dale is the foundation, not the ceiling – our ambition is to build a technically strong exploration company in proven Canadian districts, and today is the first day of it."

The Company has an experienced and motivated management team led by its CEO and director, Michael Smith, CFO and director, Robert Bain, and board members, Sean Scott and Carl David Rotor. On listing, the Company has 28,130,000 common shares issued and outstanding and 21,000,000 common shares reserved for issuance upon the exercise of certain warrants of the Company. For more information regarding the Company, please refer to its listing statement dated August 20, 2026, which is available on the Company's profile at www.sedarplus.ca and on the Company's CSE profile page.

About Synergy

Synergy Metals Corp. is a mining company focusing on the development of its keystone project, the Dale Property, located in one of Canada's most prospective mineral districts. Our vision is to build a focused and technically strong exploration company anchored by high-quality assets in proven mining districts.

Cautionary Note Regarding Forward Looking Statements

This press contains "forward-looking information" and "forward-looking statements" under applicable securities laws (collectively, "forward-looking statements"). These statements relate to future events or the Company's future

performance, business prospects or opportunities that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management made considering management's experience and perception of historical trends, current conditions and expected future developments. Forward-looking statements include, but are not limited to, statements with respect to: the Company's future exploration work. Assumptions may prove to be incorrect and actual results may differ materially from those anticipated. Consequently, forward-looking statements cannot be guaranteed. As such, investors are cautioned not to place undue reliance upon forward-looking statements as there can be no assurance that the plans, assumptions or expectations upon which they are placed will occur. All statements other than statements of historical fact may be forward-looking statements. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives or future events or performance (often, but not always, using words or phrases such as "seek", "anticipate", "plan", "continue", "estimate", "expect", "may", "will", "project", "predict", "forecast", "potential", "target", "intend", "could", "might", "should", "believe" and similar expressions) are not statements of historical fact and may be "forward-looking statements".

Forward-looking information is, by its nature, subject to numerous risks and uncertainties, some of which are beyond the Company's control. The forward-looking information contained in this news release is based on certain expectations and assumptions made by the Company, including expectations and assumptions concerning the Company's future exploration work.

Forward-looking information is subject to various risks and uncertainties which could cause actual results and experience to differ materially from the anticipated results or expectations expressed in this news release. The key risks and uncertainties include, but are not limited to: general global economic, market and business conditions; and other factors, many of which are beyond the control of the Company. As a result of the foregoing, readers should not place undue reliance on the forward-looking information contained in this news release concerning the timing of the Arrangement or whether the Arrangement will be completed.
